

Pass Huawei H12-311 Exam Quickly With Exams4sures [Q153-Q169]

Pass Huawei H12-311 Exam Quickly With Exams4sures [Q153-Q169]

Pass Huawei H12-311 Exam Quickly With Exams4sures
Prepare H12-311 Question Answers - H12-311 Exam Dumps

Huawei H12-311 Exam Syllabus Topics:

TopicDetailsTopic 1- Huawei WLAN Product| VRP Introduction and Basic Configuration| The basic operation of the ACTopic 2- WLAN Historical | WLAN Standards Bodies| WLAN RF Principles| WLAN Frequency BandsTopic 3- WLAN Topologies| 802.11 Protocol| 802.11 Physical Layer Technology| CAPWA

NO.153 The following is true for WLAN networking configuration (Select 3 Answers).

- * The user should try to ensure the detailed planning data when performing data planning, which will greatly facilitate the later configuration.
- * Before the AP is configured, the AP must be online.
- * Configure the WMM template to be directly bound to the antenna.
- * WMM template is bound to the radio template.

NO.154 A company wants to deploy WLAN. The company has purchased a number of wireless AP that support 802.11n. When the

WLAN is deployed, only 802.11n-enabled wireless clients can connect to the company's WLAN.

- * TRUE
- * FALSE

NO.155 Which of the following Huawei APs supports SFP fiber interfaces?

- * AP6010DN
- * AP6310SN
- * AP6510DN
- * AP6610DN

NO.156 When wireless network engineers are planning for WLAN networks, the purpose of RF simulation is (ABC) (Select 3 Answers).

- * Simulate signal coverage, find blind areas
- * Obtain field strength distribution at different locations
- * Obtain the current signal-to-noise ratio at different locations
- * Obtain the available bandwidth at different locations

NO.157 In the wireless network deployment scenario, when the AC is configured as Layer 3 Networking + by Hang Mode + Direct Forwarding, where can the wireless user's gateway be located? (Multiple choice)

- * Convergence layer on the Layer 3 switch
- * On the one-arm router
- * on AC
- * on AP

NO.158 TKIP encryption is higher than WEP encryption in security, which of the following are correct? (Multiple choice)

- * adopt longer IV
- * joined the key distribution mechanism, instead of using a single key
- * adopt the more complicated the encryption algorithm
- * adopt the stronger data validation algorithm

NO.159 WIDS attack detection contains which of the following? (Multiple choice)

- * Flood attack detection
- * Weak IV attack detection
- * Spoof attack detection
- * The microwave interference detection

NO.160 Among the following obstacles, has the greatest loss of wireless signals.

- * Gypsum ceiling
- * Glass
- * 120mm Brick wall
- * 200mm Concrete wall

NO.161 Which country or region is ETSI a standard organization?

- * China
- * United States
- * Japan
- * Europe

NO.162 The networking mode can be divided into direct-connected networking and side-hanging networking based on the location of the AC on the network.

- * True
- * False

NO.163 Which of the following cannot be used by Huawei AC6005 for configuration?

- * CLI
- * WEB
- * LLDP
- * eSight

NO.164 Which of the following wireless frames belong to the Control Frame (Select 3 Answers)?

- * Beacon
- * RTS
- * CTS
- * PS-Poll

NO.165 In the following priority queues, the queue has the highest default priority.

- * AC-BE
- * AC-VI
- * AC-VO
- * AC-BK

NO.166 Various pipes, metal keels and aluminum alloy gussets in the ceiling will have a greater impact on the actual signal coverage.

- * True
- * False

NO.167 What is the AP connected to the AC through the wired network in the WDS network?

- * Leaf AP
- * Middle AP
- * Master AP
- * Root AP

NO.168 What are the upgrade modes of Huawei Wireless AP? (Multiple Choice)

- * ac-mode
- * ap-mode
- * ftp-mode
- * sftp-mode

NO.169 About the networking mode, which description is true?

- * relative to the three layers networking, the layer two networking is more suitable for park, sports venues and other large network
- * the advantage of three layer networking is simple configuration, establishing networking easily
- * if the ability of AC processing the data is weak, it is recommended to use hanging by networking
- * in direct-connect networking, AP business data can reach the upward network without going through AC

Real Huawei H12-311 Exam Questions [Updated 2022:
