### Where can you take the Okta Certified Professional Exam

There are two ways to take the Okta Certified Professional certification exam. You can take it on-site, or you can take it online from your mobile. On-site is more complex as you have to come to some specific place. Online is more convenient as you need only a computer with an internet connection. Happy clients prefer online because of its simplicity. Limited updates identify additional information in the product once you have already passed all of the required exams. **Okta Certified Professional exam dumps** are the most advanced and relevant because they are easy to find. One can find many questions not having any relevant information in the solution guide. The candidates must keep in mind these things before making their choice. Scored level sets are updated for free, not to mention the supply of relevant content. Integration offered by the product with your existing solution is what takes the lead in the market.
