

[May-2022 DES-3611 Exam Dumps Pass with Updated 2022 Specialist - Technology Architect, Data Protection Exam [Q28-Q52]

[May-2022] DES-3611 Exam Dumps Pass with Updated 2022 Specialist - Technology Architect, Data Protection Exam
Free DES-3611 Exam Dumps to Pass Exam Easily

NO.28 A company's environment consists of two data centers with a single Dell EMC XtremIO array. The company has indicated that they need the ability to provide disaster recovery protection. Which RecoverPoint license will provide this capability while minimizing cost?

- * RecoverPoint/CL on both clusters
- * RecoverPoint/CL on the Production cluster only
- * RecoverPoint/SE on both clusters
- * RecoverPoint/SE on the Production cluster only

NO.29 You are designing cloud protection for a customer who is using Dell EMC Cloud Snapshot Manager.

Which Microsoft Azure resource is supported with Snapshot Management?

- * Relational Database Service
- * Elastic Compute Cloud
- * Managed Virtual Machine
- * Elastic Block Store

NO.30 In order to use Dell EMC Data Domain with Data Protection Suite for Applications Storage Direct Backup, which service is required?

- * Retention Lock Service
- * Network File System Service
- * Boost File System Service
- * Block Storage Service

Explanation/Reference:

Reference: <https://www.dell.com/resources/en-us/asset/data-sheets/products/data-protection/h15286-data-protection-suite-for-apps-ds.pdf>

NO.31 Which step is performed during the Advisory Phase of a Dell EMC Isolated Recovery Solution?

- * Deploy and harden the technology
- * Provide technology recommendations
- * Provide compliance-ready test reports
- * Develop run books and probability decision trees

NO.32 Which operational mode uses the virtual editions of Dell EMC Data Domain and Avamar with Data Domain Cloud DR?

- * Standard
- * Professional
- * Basic
- * Advanced

NO.33 Which Dell EMC array will use Snap-based replication when protected with RecoverPoint?

- * VNX
- * XtremIO
- * Unity
- * VPLEX

NO.34 Which operational mode uses the virtual editions of Dell EMC Data Domain and Avamar with Data Domain Cloud DR?

- * Standard
- * Professional
- * Basic
- * Advanced

Explanation/Reference: <https://latvia.emc.com/collateral/TechnicalDocument/docu91239.pdf> (20)

NO.35 A customer has a new NAS device that needs to be backed up. The data should be written to a Dell EMC Data Domain with NetWorker.

The Data Domain is only accessible through the network.

What is the recommended way to back up the NAS device through NDMP?

- * NDMP two-way backup
- * NDMP backup to non-NDMP devices
- * NDMP local backup
- * NDMP backup over iSCSI

NO.36 A company is planning to implement a Dell EMC RecoverPoint solution for the first time. They currently have two data centers and require remote replication. You have analyzed the WAN link between the two data centers and determined it will meet all their requirements.

What other factor will impact first time initialization of all newly configured Consistency Groups?

- * Journal of Domain with LCAP aggregation
- * RPO setting for each Consistency Group
- * Size of the volumes being replicated
- * Journal performance for remote copies

NO.37 You are meeting with a customer to provide a data protection solution for their MS SQL servers using Dell EMC NetWorker. The customer has indicated they need granular level recovery. Which feature provides this capability?

- * NSM
- * FLR Agent
- * NMDA
- * ItemPoint

NO.38 When sizing a Dell EMC Data Domain solution, what key information should be collected from the customer?

- * Amount of data that is contained in a full backup

Amount of primary data to backup, retain, and replicate offsite

Backup software reporting for a single, complete, and full back up of all data

- * Amount of available storage

Amount of tapes that will be generated weekly/monthly/yearly

Capacity of the existing tape library

- * Amount of data that exists

Amount of data that needs to be backed up

Amount of tapes used for each backup

- * Backup software reporting for a single, complete, and full back up of all data Amount of tapes that will be generated weekly/monthly/yearly Capacity of the existing tape library

NO.39 By default, how much can file cache and grow relative to the Dell EMC Avamar client main memory

- * File cache 1/4 and hash 1/8 of client memory
- * File cache 1/8 and hash 1/4 of client memory
- * File cache 1/8 and hash 1/12 of client memory
- * File cache 1/8 and hash 1/8 16 of client memory

NO.40 A company is implementing a Dell EMC RecoverPoint solution for several key applications. All applications have strict RPO requirements. Which design factor will affect the RPO of each Consistency Group?

- * Size of the Production volumes
- * Production Journal performance
- * Copy Journal performance
- * Repository volume location

NO.41 As a total data protection solution, which Dell EMC Integrated Data Protection Appliance model(s) use(s) a physical backup server?

- * DP5300 and DP8300
- * DP5800 and DP8300
- * DP8300 and DP8800
- * DP8800 only

NO.42 Based on which protection plan does Dell EMC Cloud Snapshot Manager use to help take snapshots in an Amazon Web Services cloud environment?

- * Data
- * Tags
- * Time
- * Volume

NO.43 A customer has a Dell EMC RecoverPoint Consistency Group that contains six Production volumes.

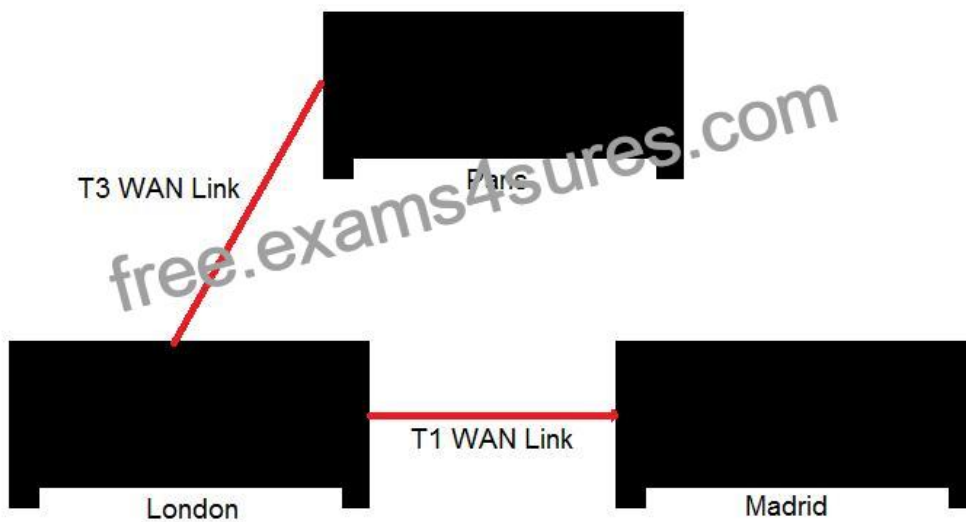

Remote replication is needed to their disaster recovery site. Which factor determines the Protection window for this group?

- * Number of RPAs in the Production cluster and the size of the Production Journal
- * Change rate of the Production volumes and Write Splitter performance
- * Number of RPAs in the Copy cluster and the size of the Copy Journal
- * Change rate of the Production volumes and the size of the Copy Journal

NO.44 A customer is evaluating the risks associated with their environment after implementing a Dell EMC isolated Recovery Solution. What is the probability of an air gap bypass?

- * LOW
- * MEDIUM
- * HIGH
- * INCREASING

NO.45 Refer to the Exhibit.

A company wants to implement replication using Dell EMC Data Domain systems in multiple locations. They want to replicate data at their London site to and from the Madrid site. In addition, the company wants to replicate data at the London site to and from the Paris site.

How should the company's design requirements be addressed?

- * Due to WAN speed limitations, replication between Madrid and London is not supported
- * Establish Bi-directional MTree replication between the sites
- * Establish Collection replication between the sites
- * Establish Bi-directional Collection replication between the sites

NO.46 In the Dell EMC Data Protection Suite for application, what is a benefits of storage Backup?

- * 10x faster backup
- * Support for a wide range of third-party storage arrays
- * 10 faster recovery
- * Backup does not required Domain

NO.47 A customer has a limited budget for a Dell EMC Isolated Recovery Solution. Their budget only allows for a shared or dedicated switch topology. What is an advantage of a dedicated switch versus a shared switch topology?

- * Less expensive to implement
- * Outward facing interfaces accept any Data Domain protocol
- * Contains a firewall for security purposes
- * No resources are shared with production

Explanation/Reference:

NO.48 A company using a Dell EMC RecoredPoint solution has asked you to explain how to increase their protection Windows on certain key Consistency Groups. Which action addresses the company's inquiry?

- * Increase the size of the journal volumes
- * Add additional vRPAs to the Copy cluster
- * Add additional vRPAs to the Production cluster

- * Use Distributed Consistency Groups

NO.49 You are redesigning a customer's Dell EMC NetWorker backup solution. The customer has a Data Domain system at each location. The connection between the sites is 100 Mb. The customer wants to back up the data in their primary data center and then clone it to the other location.

What is the recommended way to replicate the data to the secondary site with different retention policies?

- * Save Set Synchronization
- * Save Set Staging
- * Clone Controlled Replication
- * MTree Replication with Retention Locking

Explanation/Reference:

Reference: <https://www.emc.com/collateral/TechnicalDocument/docu53905.pdf>

NO.50 A customer plans to integrate a new Dell EMC Data Domain system into their existing backup environment.

Which protocols are supported over Ethernet for the backup data?

- * CIFS, NFS, and DD Boost
- * CIFS, HTTP, and VTL
- * NDMP, VTL, and FTP
- * CIFS, VTL, and DD Boost

Explanation/Reference: <https://www.dellemc.com/en-us/glossary/virtual-tape-library.htm>

NO.51 A customer has finished evaluating multiple Dell EMC NetWorker servers and wants to activate the software.

In addition, they want to centralize the NetWorker licenses. Which information is required?

- * Sales order number and hostname of the NetWorker server
- * Sales order number and hostname of the license server
- * LAC number, IP address, and hostname of the NetWorker server
- * LAC number, IP address, and hostname of the license server

NO.52 You have been asked to perform an assessment of a customer's environment. The customer has given complete access to their IT staff and environment. During which stage of the assessment is it first learned about the databases, currently backup software, and growth rates in the environment?

- * Interview phase
- * Design
- * Assumptions versus Reality
- * Environment Analysis
