PCCSE Dumps for Cloud Security Engineer Certified Exam Questions and Answer

The benefit in Obtaining the Palo-Alto-Networks PCCSE: Prisma Certified Cloud Security Engineer Exam Certification

Through completing their courses and having access to revision resources for seven months after the end, candidates would have a more comprehensive know-how than an uncertified expert when it comes to different technology and programs. In this specific skill range, certified professionals are 74 percent more able to perform their assignments on schedule. After the Palo Alto Network Accredited Security Engineer Certification applicants have completed their programs, they have received a Palo Alto official assurance that they have already received the certification in their area. You will also apply this to your CV, cover letters and work requests. In terms of their preparation, organizational owners invest a lot in their workers in order to increase speed, efficiency and understanding of their importance to them. Certified professionals can limit the amount he spends on projects, which means that he will do more to minimize business failure if device glitches are repaired or hardware difficulties resolved. Being a Palo Alto Network Certified Network Security Engineer ensures the one item that the organisation values and therefore a better compensation plan is worth to you. On average, a member of a qualified Palo Alto Networks Network Security Engineer team is calculated to be 30% higher than its uncertified technical members. If you qualify to be employed or seeking to become a promoter at your present location, you will be listed as top candidates by the Palo Alto Network Certified Network Security Engineer qualification in the area in which you apply.

Palo-Alto-Networks PCCSE: Prisma Certified Cloud Security Engineer Exam topics

Candidates must know the exam topics before they start of preparation. Because it will really help them in hitting the core. Our **PCCSE exam dumps pdf** will include the following topics:

- Configuration Troubleshooting 18%- Core Concepts 23%- Planning 16%- Deploying and Configure 23%- Operation 20%

Along with that, the following are some important aspects of the exam and covered in **PCCSE exam dumps**.

- Monitoring and Reporting- Interface Configuration- Decryption- User-ID- App-ID- GlobalProtect- Site-to-Site VPNs- Security and NAT Policies- Content-ID- WildFire **NO.64** Which statement accurately characterizes SSO Integration on Prisma Cloud?

Prisma Cloud?

- * Prisma Cloud supports IdP initiated SSO, and its SAML endpoint supports the POST and GET methods.
- * Okta, Azure Active Directory, PingID, and others are supported via SAML.
- * An administrator can configure different Identity Providers (IdP) for all the cloud accounts that Prisma Cloud monitors.
- * An administrator who needs to access the Prisma Cloud API can use SSO after configuration.

NO.65 Which statement accurately characterizes SSO Integration on Prisma Cloud?

- * Prisma Cloud supports IdP initiated SSO, and its SAML endpoint supports the POST and GET methods.
- * Okta, Azure Active Directory, PingID, and others are supported via SAML.
- * An administrator can configure different Identity Providers (IdP) for all the cloud accounts that Prisma Cloud monitors.
- * An administrator who needs to access the Prisma Cloud API can use SSO after configuration.

Section: (none)

Explanation

NO.66 Which order of steps map a policy to a custom compliance standard?

(Drag the steps into the correct order of occurrence, from the first step to the last.)

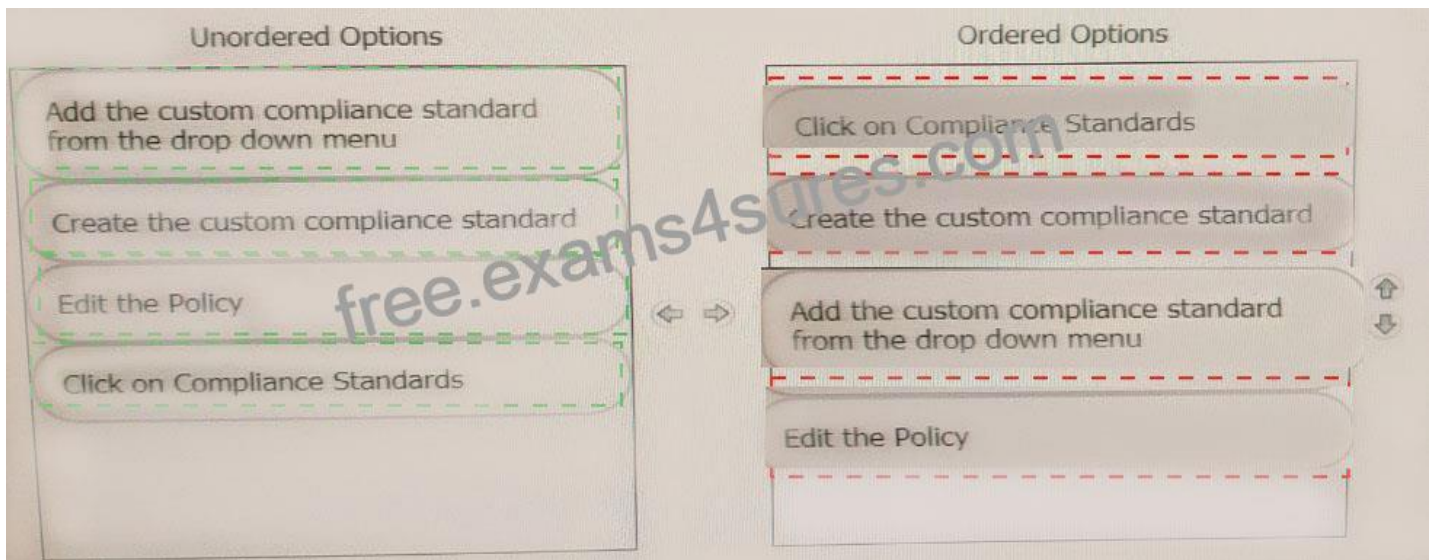

The screenshot shows a drag-and-drop interface with two columns: "Unordered Options" and "Ordered Options".

Unordered Options:

- Add the custom compliance standard from the drop down menu
- Create the custom compliance standard
- Edit the Policy
- Click on Compliance Standards

Ordered Options:

The "Ordered Options" column is currently empty. A watermark "free.exams4sures.com" is visible across the interface. There are arrows between the columns and a vertical arrow on the right side of the "Ordered Options" column.

NO.67 Given an existing ECS Cluster, which option shows the steps required to install the Console in Amazon ECS?

- * The console cannot natively run in an ECS cluster. A onebox deployment should be used.
- * Download and extract the release tarball Ensure that each node has its own storage for Console data Create the Console task definition Deploy the task definition
- * Download and extract release tarball Download task from AWS Create the Console task definition Deploy the task definition
- * Download and extract the release tarball Create an EFS file system and mount to each node in the cluster Create the Console task definition Deploy the task definition

NO.68 Which three fields are mandatory when authenticating the Prisma Cloud plugin in the IntelliJ application?

(Choose three.)

- * Secret Key
- * Prisma Cloud API URL
- * Tags
- * Access Key
- * Asset Name

NO.69 An administrator wants to enforce a rate limit for users not being able to post five (5) .tar.gz files within five (5) seconds.

What does the administrator need to configure?

- * A ban for DoS protection with an average rate of 5 and file extensions match on .tar.gz on WAAS
- * A ban for DoS protection with a burst rate of 5 and file extensions match on .tar.gz on CNNF
- * A ban for DoS protection with a burst rate of 5 and file extensions match on .tar.gz on WAAS
- * A ban for DoS protection with an average rate of 5 and file extensions match on .tar.gz on CNNF

NO.70 You have onboarded a public cloud account into Prisma Cloud Enterprise. Configuration Resource ingestion is visible in the Asset Inventory for the onboarded account, but no alerts are being generated for the configuration assets in the account.

Config policies are enabled in the Prisma Cloud Enterprise tenant, with those policies associated to existing alert rules. ROL statements on the investigate matching those policies return config resource results successfully.

Why are no alerts being generated?

- * The public cloud account is not associated with an alert notification.
- * The public cloud account does not have audit trail ingestion enabled.
- * The public cloud account does not access to configuration resources.
- * The public cloud account is not associated with an alert rule.

NO.71 Move the steps to the correct order to set up and execute a serverless scan using AWS DevOps.

Execute Pipeline		First
Create Lambda function with settings		Second
Download Prisma Cloud Lambda function executable		Third
Create a pipeline with settings		Fourth

Execute Pipeline	Download Prisma Cloud Lambda function executable	First
Create Lambda function with settings	Create Lambda function with settings	Second
Download Prisma Cloud Lambda function executable	Create a pipeline with settings	Third
Create a pipeline with settings	Execute Pipeline	Fourth

Explanation

Graphical user interface, text, application Description automatically generated

Download Prisma Cloud Lambda function executable	First
Create Lambda function with settings	Second
Create a pipeline with settings	Third
Execute Pipeline	Fourth

NO.72 An administrator has been tasked with a requirement by your DevSecOps team to write a script to continuously query programmatically the existing users, and the user's associated permission levels, in a Prisma Cloud Enterprise tenant.

Which public documentation location should be reviewed to help determine the required attributes to carry out this step?

- * Prisma Cloud Administrator's Guide (Compute)
- * Prisma Cloud API Reference
- * Prisma Cloud Compute API Reference
- * Prisma Cloud Enterprise Administrator's Guide

NO.73 Which policy type in Prisma Cloud can protect against malware?

- * Data
- * Config
- * Network
- * Event

NO.74 The development team is building pods to host a web front end, and they want to protect these pods with an application firewall.

Which type of policy should be created to protect this pod from Layer7 attacks?

- * The development team should create a WAAS rule for the host where these pods will be running.
- * The development team should create a WAAS rule targeted at all resources on the host.
- * The development team should create a runtime policy with networking protections.
- * The development team should create a WAAS rule targeted at the image name of the pods.

NO.75 Which order of steps map a policy to a custom compliance standard?

(Drag the steps into the correct order of occurrence, from the first step to the last.)

Answer Area

Unordered Options	Ordered Options
Add the custom compliance standard from the drop-down menu	
Create the custom compliance standard	
Edit the Policy	
Click on Compliance Standards	

Answer Area

Unordered Options	Ordered Options
Add the custom compliance standard from the drop-down menu	Click on Compliance Standards
Create the custom compliance standard	Edit the Policy
Edit the Policy	Add the custom compliance standard from the drop-down menu
Click on Compliance Standards	Create the custom compliance standard

NO.76 An administrator has been tasked with creating a custom service that will download any existing compliance report from a Prisma Cloud Enterprise tenant.

In which order will the APIs be executed for this service?

(Drag the steps into the correct order of occurrence, from the first step to the last.)

Answer Area

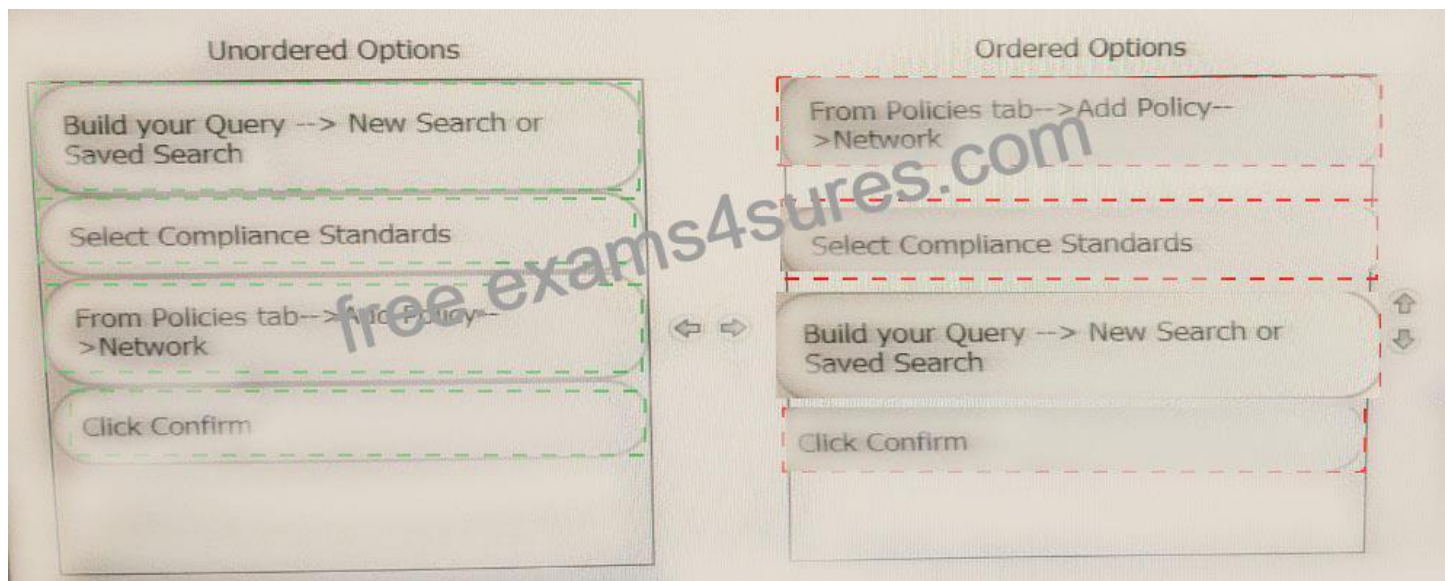

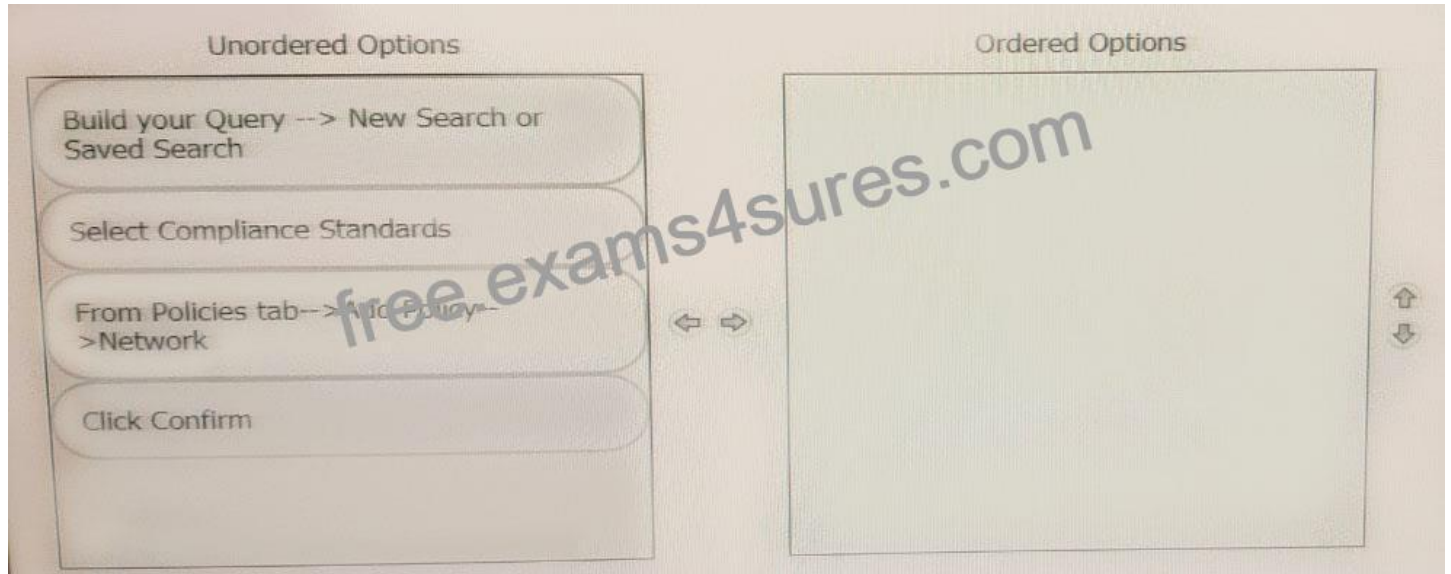

Unordered Options	Ordered Options
POST https://api.prismacloud.io/login	
GET https://api.prismacloud.io/report	
GET https://api.prismacloud.io/report/id/download	

Answer Area

Unordered Options	Ordered Options
POST https://api.prismacloud.io/login	GET https://api.prismacloud.io/report
GET https://api.prismacloud.io/report	GET https://api.prismacloud.io/report/id/download
GET https://api.prismacloud.io/report/id/download	POST https://api.prismacloud.io/login

NO.77 What is the order of steps to create a custom network policy?

(Drag the steps into the correct order of occurrence, from the first step to the last.)

NO.78 Which type of compliance check is available for rules under Defend > Compliance > Containers and Images

- > CI?
- * Container
- * Image
- * Host
- * Functions

NO.79 A customer has multiple violations in the environment including:

User namespace is enabled

An LDAP server is enabled

SSH root is enabled

Which section of Console should the administrator use to review these findings?

- * Manage
- * Vulnerabilities
- * Radar
- * Compliance

NO.80 The development team wants to block Cross Site Scripting attacks from pods its environment How should the team construct the CNAF policy to protect against this attack?

- * create a Container CNAF policy, targeted at a specific resource, check the box for XSS attack protection and set the action to alert
- * create a Host CNAF policy targeted at a specific resource, check the box for XSS attack protection and set the action to prevent
- * create a Container CNAF policy, targeted at a specific resource, check the box for XSS attack protection and set the action to prevent
- * create a Container CNAF policy, targeted at a specific resource, and they should set Explicitly allowed inbound IP sources; to the IP address of the pod.

NO.81 You are an existing customer of Prisma Cloud Enterprise. You want to onboard a public cloud account and immediately see all of the alerts associated with this account based off ALL of your tenant's existing enabled policies. There is no requirement to send alerts from this account to a downstream application at this time.

Which option shows the steps required during the alert rule creation process to achieve this objective?

- * Ensure the public cloud account is assigned to an account group Assign the confirmed account group to alert rule select all policies; checkbox as part of the alert rule Confirm the alert rule
- * Ensure the public cloud account is assigned to an account group Assign the confirmed account group to alert rule Select one or more policies checkbox as part of the alert rule Confirm the alert rule
- * Ensure the public cloud account is assigned to an account group Assign the confirmed account group to alert rule Select one or more policies as part of the alert rule Add alert notifications Confirm the alert rule
- * Ensure the public cloud account is assigned to an account group Assign the confirmed account group to alert rule select all policies; checkbox as part of the alert rule Add alert notifications Confirm the alert rule

NO.82 Which kind; of Kubernetes object is configured to ensure that Defender is acting as the admission controller?

- * MutatingWebhookConfiguration
- * DestinationRules
- * ValidatingWebhookConfiguration
- * PodSecurityPolicies

NO.83 Which type of compliance check is available for rules under Defend > Compliance > Containers and Images > CI?

- * Host
- * Container
- * Functions
- * Image

NO.84 A customer has a large environment that needs to upgrade Console without upgrading all Defenders at one time.

What are two prerequisites prior to performing a rolling upgrade of Defenders? (Choose two.)

- * manual installation of the latest twistcli tool prior to the rolling upgrade
- * all Defenders set in read-only mode before execution of the rolling upgrade
- * a second location where you can install the Console
- * additional workload licenses are required to perform the rolling upgrade
- * an existing Console at version n-1

NO.85 A security team is deploying Cloud Native Application Firewall (CNAF) on a containerized web application. The application is running an NGINX container. The container is listening on port 8080 and is mapped to host port 80.

Which port should the team specify in the CNAF rule to protect the application?

- * 443
- * 80
- * 8080
- * 8888

NO.86 A Prisma Cloud administrator is tasked with pulling a report via API. The Prisma Cloud tenant is located on app2.prismacloud.io.

What is the correct API endpoint?

- * https://api.prismacloud.io
- * https://api2.eu.prismacloud.io
- * https://api.prismacloud.cn
- * https://api2.prismacloud.io

NO.87 How are the following categorized?

- * Backdoor account access
- * Hijacked processes
- * Lateral movement
- * Port scanning
- * audits
- * models
- * admission controllers
- * incidents
