

Real SAP C-TS422-2021 Exam Questions Study Guide [Q23-Q39]

Real SAP C-TS422-2021 Exam Questions Study Guide

Updated and Accurate C-TS422-2021 Questions for passing the exam Quickly

NEW QUESTION 23

Which master data object governs the relationship between supply source and demand source in the Kanban process?

- * Control cycle
- * Production supply area
- * Replenishment strategy
- * Rate routing

NEW QUESTION 24

How would you define pegging in the context of Advanced Planning?

- * An evaluation that is ordered according to the network structure of all related products and represents the coverage of issue elements
- * An evaluation that is ordered according to the bill-of-material structure of all related products and represents the relationship

between the receipt and the issue elements

- * An evaluation to verify if there are overstock situations in the balance between receipt and issue elements after the production planning run
- * An evaluation to verify if there are material or capacity shortages in the network after the production planning run.

NEW QUESTION 25

What determines whether the planned independent requirements in MRP are consumed by other requirements?

- * Consumption sequence procedure
- * Requirements profile
- * Order type
- * Requirements type

NEW QUESTION 26

Where do you maintain data to determine the duration of an operation for production?

- * Bill of material (BOM)
- * Routing
- * Material master
- * Work center

NEW QUESTION 27

How can you set up the supply source for the Kanban process in SAP S/4HANA?

- * Using run schedule quantities for in-house production
- * Using quotations for internal and external procurement
- * Using purchase orders for external procurement
- * Using stock transfer reservations for stock transfer
- * Using purchasing costs for automated source prioritization

NEW QUESTION 28

For what production type are production orders used?

- * Process manufacturing processes
- * Replenishment controlled by control cycles
- * Discrete manufacturing processes
- * Period and quantity-oriented production

NEW QUESTION 29

Which item statuses can you select inside a material BOM?

- * Service
- * Sales
- * Quality management
- * Engineering

NEW QUESTION 30

Your project team decides to use a make-to-order planning strategy for strategic in discrete manufacturing.

What is the impact of this decision?

- * Net requirement calculation is sales-order specific.
- * A sales-order-specific planning run is required.
- * Storage location MRP areas are required.
- * Production orders specific stock is created

NEW QUESTION 31

Your quality department detect a deviation in a raw material batch. Unfortunately, this batch has already been used in production. How can you identify all affected finish goods stocks?

- * Use the batch information cockpit.
- * Use the material staging report.
- * Use the material where-used report.
- * Use batch determination.

NEW QUESTION 32

What do you use to dispatch operations from planned orders so that the production plan can be fulfilled?

- * Material Requirements Planning (MRP)
- * Capacity Requirements Planning (CRP)
- * Supply Network Planning (SNP)
- * Demand Planning (DP)

NEW QUESTION 33

For which categories can you define BOMs in SAP S/4HANA?

- * Work Center
- * Sales order
- * Class
- * Document Structure

NEW QUESTION 34

You want to triggering-house production of a semi-finished material before a sales order for the corresponding finished good is received. Which planning strategy supports the consumption of planned independent requirements for the semi-finished material?

- * Make-to-order production (20)
- * Planning at assembly level (70)
- * Planning with final assembly (40)
- * Planning without final assembly (50)

NEW QUESTION 35

Which of the following are possible configuration steps when setting up the alert monitor in Advance Planning?

- * Create object selection variant for transportation lane-related alerts.
- * Create object selection variant for product-related alerts.
- * Assign the overall profile to the authorization profile.
- * Assign the alert profile to the overall profile.

NEW QUESTION 36

Why would you use phantom assemblies?

- * To simplify the structure of bills of materials
- * To make the assignment of components easier
- * To reduce the number of changes required in bills of materials
- * To reduce the number of material masters
- * To increase the number of planning levels

NEW QUESTION 37

What is the purpose of a reporting point confirmation in repetitive manufacturing?

- * To stage different components for a production line simultaneously
- * To determine the work in progress along the production line
- * To reduce the total production lead time for along production line
- * To provide timely updates of inventory management for the staged components

NEW QUESTION 38

What could be the reason for multiple commitment of invidula capacities, where several operations have the same scheduled dates on a work center (or resource) after planing?

- * The work center has several invidula capacities.
- * The finite Scheduling indicator is NOT set in the strategy profile.
- * The Change Planning Direction indicator is set in strategy profile.
- * Alternative work centers are fully occupied.

NEW QUESTION 39

When do you use variant bills of materials (BOMs)?

- * When a material has a configurable BOM
- * When multiple materials also have similar BOMs
- * When a material has multiple BOMs
- * When multiple materials have multiple BOMs

SAP C-TS422-2021 Certification Exam Topics:

Topic Areas
Topic Details, Courses, Books
Introduction to SAP S/4HANA Supply Chain Planning < 8% Outline both motivation and background of SAP S/4HANA, describe its main components, the lines of business, and the SAP User Experience strategy.
TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021) **Demand Management in SAP S/4HANA < 8%** Explain and compare the different production methods in make-to-order, make-to-stock, and assembly planning. TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021) **Process Orders in SAP S/4HANA < 8%** Characterize process order elements and process order processing, determine master data objects for process orders, identify features for Good Manufacturing Practices (GMP). TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021) **Capacity Planning in SAP S/4HANA 8% - 12%** Outline best practices for using SAP S/4HANA, describe the SAP HANA database concept and new user experience with SAP Fiori, outline the

capabilities of embedded analytics. TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021) **Material Requirements Planning in SAP S/4HANA 8% - 12%**Select and apply planning strategies, use the planning table, characterize long-term planning and master production scheduling, outline MRP basics and steps of MRP, and describe lot size procedures. TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021) **Master Data in SAP S/4HANA > 12%**Identify and explain production relevant master data, including, but not limited to: bill of material, routing and production version. TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021) **Production Orders in SAP S/4HANA > 12%**Determine BOM item category, describe order status management and set user statuses, configure availability check for components, trigger routing selection, set up an order type, apply material staging and confirmation. TS421 (SAP S/4HANA 2021) TS422 (SAP S/4HANA 2021)
