Dependable Ethics-In-Technology Exam Dumps to Become WGU Certified Get Ready with Ethics-In-Technology Exam Dumps (2025) NEW QUESTION 28

A software development company's executive management team recently met to review its progress on ethical and social responsibility goals. After the review, the team planned a new set of goals for the upcoming year.

The team shared the results of this review and the new goals with the employees and the board of directors.

Which process did the team complete?

- * Establish code of ethics
- * Model high ethical standards
- * Deliver ethics training
- * Conduct social audit

NEW QUESTION 29

A publicly-traded organization listed on the New York Stock Exchange has been flagged for possible accounting malpractices. An

auditor discovers that the company used funds to disguise payments to international officials. The auditor also finds that the system of internal control does not adequately maintain books and records that reflect all business transactions.

Which law did the organization potentially violate?

- * Committee on Foreign Investment in the United States
- * Foreign Intelligence Surveillance Act
- * Foreign Corrupt Practices Act
- * Electronic Communications Privacy Act

NEW QUESTION 30

An organization is implementing a new computerized manufacturing system. The organization is concerned about proving the level of quality based on standards related to the system and associated processes.

Which International Organization for Standardization (ISO) standard certification should the organization seek to achieve this specific goal?

- * 9001
- * 14000
- * 8601
- * 27001

NEW QUESTION 31

The retail store manager of a telecommunications service provider has been manually entering the data record of device returns into the company's device database every time a subscriber swaps their old phone for a new one. A recent internal audit revealed that several device records are missing from the device database.

Which aspect of data management should the store employ to avoid this situation?

- * Encryption
- * Collection
- * Availability
- * Accuracy

NEW QUESTION 32

An underage actor is admitted to a local hospital. A nurse from another department wants to know what the patient's ailment is. The nurse accesses the patient's medical record and is subsequently flagged for unauthorized access.

Which law has the nurse violated?

- * Electronic Communications Privacy Act (ECPA)
- * Health Insurance Portability and Accountability Act (HIPAA)
- * Gramm-Leach-Bliley Act (GLBA)
- * Children's Online Privacy Protection Act (COPPA)

NEW QUESTION 33

A robotics company engages an IT firm to deliver a marketing software solution. During the project, the robotics company asks for additional features that were not in the initial contract. The IT firm's project leader is unsure whether it can deliver these features but verbally agrees to the scope change. On delivery, the robotics company notes that several of the additional features are not included and that because of this, the solution is not compatible with certain legacy systems the company did not initially

disclose.

Which factor might have mitigated the problem if the IT firm's project leader had abided by a professional code of ethics?

- * Minimizing scope creep requests from the customer
- * Improving decision-making around agreeing to additional scopes
- * Avoiding the delivery of an incompatible solution
- * Understanding the legal implications of noncontractual agreements

NEW QUESTION 34

A software company continues to refine and update the predictive algorithm that makes its product the market leader. Although the company announces some changes, most are unannounced so that people and businesses remain unaware.

What is this company protecting?

- * Tradecraft
- * Trade secret
- * Trade dress
- * Trademark

NEW QUESTION 35

A credit reporting agency collects personally identifiable information (PII) from customers. The agency appoints a data protection officer (DPO), who is responsible for overseeing the agency's data protection strategy and enforcing data compliance requirements.

Which legislation should the DPO use as the basis for governing the collection and disclosure of PII?

- * Securities Exchange Act
- * Sarbanes-Oxley Act (SOX)
- * Gramm-Leach-Bliley Act (GLBA)
- * Bank Secrecy Act

NEW QUESTION 36

An insurance company develops an artificial intelligence (AI) system to manage claims automatically.

Although this technology benefits most customers, people from neighborhoods associated with a low socioeconomic status find it harder to get their claims approved. The company decides to keep using the system.

Which ethical theory justifies the company to come to this decision?

- * Pluralism
- * Utilitarianism
- * Virtue ethics
- * Deontology

NEW QUESTION 37

Which act prohibits U.S. government agencies from concealing the existence of personal data record-keeping systems?

- * Electronic Communications Privacy Act
- * Family Educational Rights and Privacy Act
- * Privacy Act

- * Right to Financial Privacy Act

NEW QUESTION 38

A consulting company employs H-1B workers. Even though companies applying for H-1B visas must offer a wage that is at least 95% of the average salary for the occupation, a close review of salaries within the consulting firm suggests that its H-1B workers are often paid 20% less on average than those with similar skill sets.

Which loophole is the company using to avoid paying H-1B workers a fair wage?

- * Laying off employees with U.S. citizenship to lower the average salary numbers
- * Classifying an H-1B worker as entry level when they fill a position of an experienced worker
- * Pressuring H-1B workers to file petitions with the government to allow lower salary
- * Employing H-1 B workers to work remotely from countries where the cost of living is lower

NEW QUESTION 39

A chief financial officer (CFO) at a major telecommunications company decides to replace a high number of its customer-facing stores with artificial intelligence-enabled telecom booths. The telecom booths will enable current or new subscribers to buy or replace SIM cards or mobile phones on the go. The CFO is concerned about a major reduction in the workforce but believes this move will help grow the company's subscriber base, reduce customer churn, and increase overall company profits.

Which ethical theory does this approach represent?

- * Deontology
- * Care
- * Consequentialism
- * Virtue

NEW QUESTION 40

What are two outcomes of adherence to a professional code of ethics for individuals, their profession, and society as a whole?
Choose 2 answers.

- * Standardized business practices
- * Consistent decision-making
- * Assured employer integrity
- * Faster career advancement

NEW QUESTION 41

Which legislation provides a safe harbor for internet service providers (ISPs) whose customers violate intellectual property rights?

- * Digital Millennium Copyright Act
- * Copyright Term Extension Act
- * Digital Performance Right in Sound Recordings Act
- * Leahy-Smith America Invents Act

NEW QUESTION 42

A company struggles to maintain project schedules with its current resource capacity. With a new set of corporate goals and restrictions on full-time hires, the company is considering adding contingent workers to help fill the gap.

What is a disadvantage of using contingent workers to support the company's goals?

- * Any skills gained during employment will be lost to the company at the project's completion.
- * Internal business process understanding will be minimal given the temporary nature of the workers.
- * The company may require the same worker for other projects.
- * The company does not have to provide benefits throughout the project's lifecycle.

NEW QUESTION 43

An organization collects data in aggregate format about its employees to improve workflow. Managers at the organization must ensure that the data collected is for business purposes only. Which data collection method should the organization implement?

- * Electronic discovery
- * Consumer profiling
- * Workplace monitoring
- * Advanced surveillance

NEW QUESTION 44

After Alliah Company and Quiet Flag Industries signed an exclusive data exchange deal, Alliah Company received a better offer from Endothon Company. Despite legal obligations, Alliah Company signs a deal with Endothon Company and immediately ceases activities with Quiet Flag Industries.

Which ethical issue is Alliah Company engaging in by signing the deal with Endothon Company and ceasing activities with Quiet Flag Industries?

- * Computer fraud
- * Misrepresentation
- * Breach of contract
- * Conflict of interest
